

# Local Offer for Special Educational Needs and Disabilities

Local Offer: this is a document or an online resource which gives information about services and support in the local area. The Local Offer brings together information for children and young people with Special Educational Needs and Disabilities. It helps families of children and young people with Special Educational Needs and Disabilities know where and how to get help to make things less difficult. Every local authority is responsible for writing and sharing a Local Offer. They must make sure it is available for everyone to see.

Special Educational Needs and Disabilities: this means a child or young person who has a learning difficulty or a disability. The child or young person needs special health and or education support to help them do well.
