

Carnwath Road CCTV Consultation Report – October 2018

As part of the London Borough of Hammersmith & Fulham's commitment to deal with crime and help to keep residents safe, a proposal has been made to install CCTV at Carnwath Road. This is due to reported instances of drug taking, fly tipping and antisocial behaviour. The proposal is to install 18 cameras.

We have carried out a consultation with residents of Carnwath House and John Dwight House to confirm that there is support for this CCTV proposal.

Approach

We sent CCTV consultation surveys to all residents at Carnwath Road. 35 properties were surveyed.

Consultation results

In total, 5 survey responses were received. This represents a response rate of 14%.

100% of respondents supported the proposal to install CCTV cameras. Residents gave the following reasons for their support:

- Experience of antisocial behaviour at Carnwath Road
- Deter car thieves
- Will help tackle fly tipping
- Will help tackle drug taking

Getting involved

We also use the CCTV consultation survey as an opportunity to ask residents if they would like to work with us to improve their services, or be more active in their communities.

- 4 residents would like to find out more about ways they can get involved.
- 4 residents would like to receive news and information from the Housing Department.
- 4 residents would like to become more involved in the Carnwath Road.

Next Steps

This consultation report will be shared with Andy Stocker, CCTV Manager and Street Czar, who will be responsible for commissioning the CCTV installation.

Interest in involvement will be followed up by the Resident Involvement Team.
