

7TH|8TH|9TH JUNE 2019

CHESTERTONS POLO IN THE PARK – GENERAL INFORMATION

On 7th, 8th, 9th June 2019 Chestertons Polo in the Park is returning to Hurlingham Park. Following ongoing reviews of the event and stakeholder meetings, Sportgate International Ltd have worked with Hammersmith & Fulham Council to produce a summary of answers to frequently asked questions:

Q. What are the dates for this year's Chestertons Polo in the Park?

A: The event will be hosted at Hurlingham Park SW6 on the following dates: Friday 7th June (1200hrs-2100hrs), Saturday 8th June (1200hrs – 2000hrs) and Sunday 9th June (1130hrs – 1900hrs)

Q. Are tickets available for residents?

A. Organisers give away 2000 event tickets every year that are distributed to local residents via a ballot system each year. Details and entry for the ballot can be found here: <https://www.lbhf.gov.uk/arts-and-parks/parks-and-open-spaces/hurlingham-park/chestertons-polo-park>

Q. Where can I buy tickets?

A. Aside from entering into the LBHF ballot, if you are interested in purchasing tickets to the event, general admission tickets are available to purchase on <http://www.polointheparklondon.com/tickets> via Ticketmaster or telephone 0844 248 5069.

Q. Where can I go to use a football or rugby pitch when the polo is on?

A. The event does not take place during the regular football and rugby season where bookable pitches apply. Sports users will be accommodated on pitches in other nearby parks – please enquire via LBHF.

Q. Where can schools go to use pitches while Hurlingham's are out of use?

A. The multi-use pitch is available at all times (except: 6th, 7th, 8th & 9th June 2019) while grass pitches in alternative nearby parks have been made available for schools and sport teams during this time.

Q. Where can dog walkers go?

A. The dog walking area on Hurlingham Road will still be available for use throughout the event period. Additionally the northern section of the park is also kept open for as long as possible.

Q. Will the car park still be available?

A. 50% of the Car Park at Hurlingham Park will be available at all times except: 7th, 8th & 9th June 2019

Q. What ground work is expected on the park?

A. Ground works in the run up to the event will include:

- An enhanced maintenance programme for the park from the end of April. The process of verti-draining, top dressing, over-seeding, mowing and irrigating is an advanced treatment to the ground, building on the improvement works that have taken place courtesy of the event since 2009. This process will take approx 5 weeks but disruption to the site will be kept to a minimum.

Ground works post event includes:

- Full reinstatement of ground and areas affected by the event. There will be a second programme of enhanced maintenance taking the same form as the works leading up to the event. This will improve the park for the benefits for all users all year round. This work will require areas to be fenced off. Fenced areas will be minimised and rotated.

Q. How will the event be licensed?

A. Sportgate International Ltd have an up-to-date premises licence based on the previous licences granted for this event, and learnings from previous events. The licence is to be reviewed each year to ensure relevance. This temporary premises licence will only permit licensable activities for the 3 days of the Polo in the Park event.

Q. How will organisers manage the traffic that will result from the event?

A. The organisers, Sportgate International Ltd, in consultation with local residents and LBHF Highways Department will repeat the new traffic system introduced on event days in 2017. The system is one-way westbound along Hurlingham Road and one-way traffic order northbound along Linver Road from Hurlingham Road to New Kings Road and northbound up Foskett Road from Hurlingham Road. This is to alleviate the congestion experienced on Linver Road and avoids the requirement to suspend parking on that street. In 2018 we trialled extending the one-way diversion on Foskett Road to run the length of Foskett Road all the way to New Kings Road. Following a review of the extension we will implement the same system in 2019. **NB – The traffic orders will be in place from 30 minutes before the event opens to 30 mins after the event closes each day of 7th, 8th and 9th June.**

There will be parking bay suspensions on some of Hurlingham Road and on Broomhouse Lane as per previous years. The one way system reduces the number of parking bay suspensions by 50%. Details can be found at <https://www.lbhf.gov.uk/arts-and-parks/parks-and-open-spaces/hurlingham-park/chestertons-polo-park> under the section Traffic Management Information

Q. How will the public access the event?

A. All event attendees will be directed to use nearby public transport links to access Hurlingham Park. Sportgate International have also organised for a black cab taxi company to provide a plentiful supply of taxis to ensure quick and efficient clearing of the area.
