CONSERVATION AREA CHARACTER PROFILE ADDENDUM

PARSONS GREEN

DESIGNATION AND BOUNDARY EXTENSIONS

(Refer to page 4 of the original profile published April 1999)

On 2nd July 2002 the conservation area was further extended by the inclusions of:

- Parsons Green LUL Station and railway bridge

CHARACTER AND APPEARANCE Adjoining Sub-area A Parsons Green

(Refer to page 5 of the original profile)

Parsons Green LUL Station consists of a two-storey station building with a three-storey tower on the north side of the railway line, in Italianate style dating from 1880. Both platforms have canopies with attractive timber retaining walls and support posts. Six cast iron 19th Century bollards, which are Grade II listed, mark the entrance to Beaconsfield Walk from Parsons Green Lane.

Corrections:

Sub-area B Eel Brook Common and surrounding residential development
(Refer to page 11 of the original profile)

5.50 There are some terraced properties on the northern side and the site of the former St. Mark's School has now been developed for housing. An infill office development respects the scale and building line of the street.

STATUTORY LISTED BUILDINGS

(Refer to page 22 of the original profile)

The following are now also within the conservation area.

Parsons Green Lane

6 Bollards at entrance to Beaconsfield Walk
Grade II

LOCAL REGISTER OF BUILDINGS AND STRUCTURES OF MERIT

(Refer to page 22 of the original profile)

The following are now also within the conservation area.

Irene Road

No. 31
(added June 2000)

New Kings Road

Nos. 26 to 38 (even)
(added June 2000)

Parsons Green Lane

No. 51 (former The Alma P.H.)
(added June 2000)
Parsons Green LUL Station
(added June 2000)

ARTICLE 4 DIRECTIONS

(Refer to page 22 of the original profile)

Corrections:

A Parsons Green Direction No. 1

Nos. 1-8 & 9-18 (consecutive)

Blake Gardens

Nos. 1-23 (odd) and 2-14 (even)

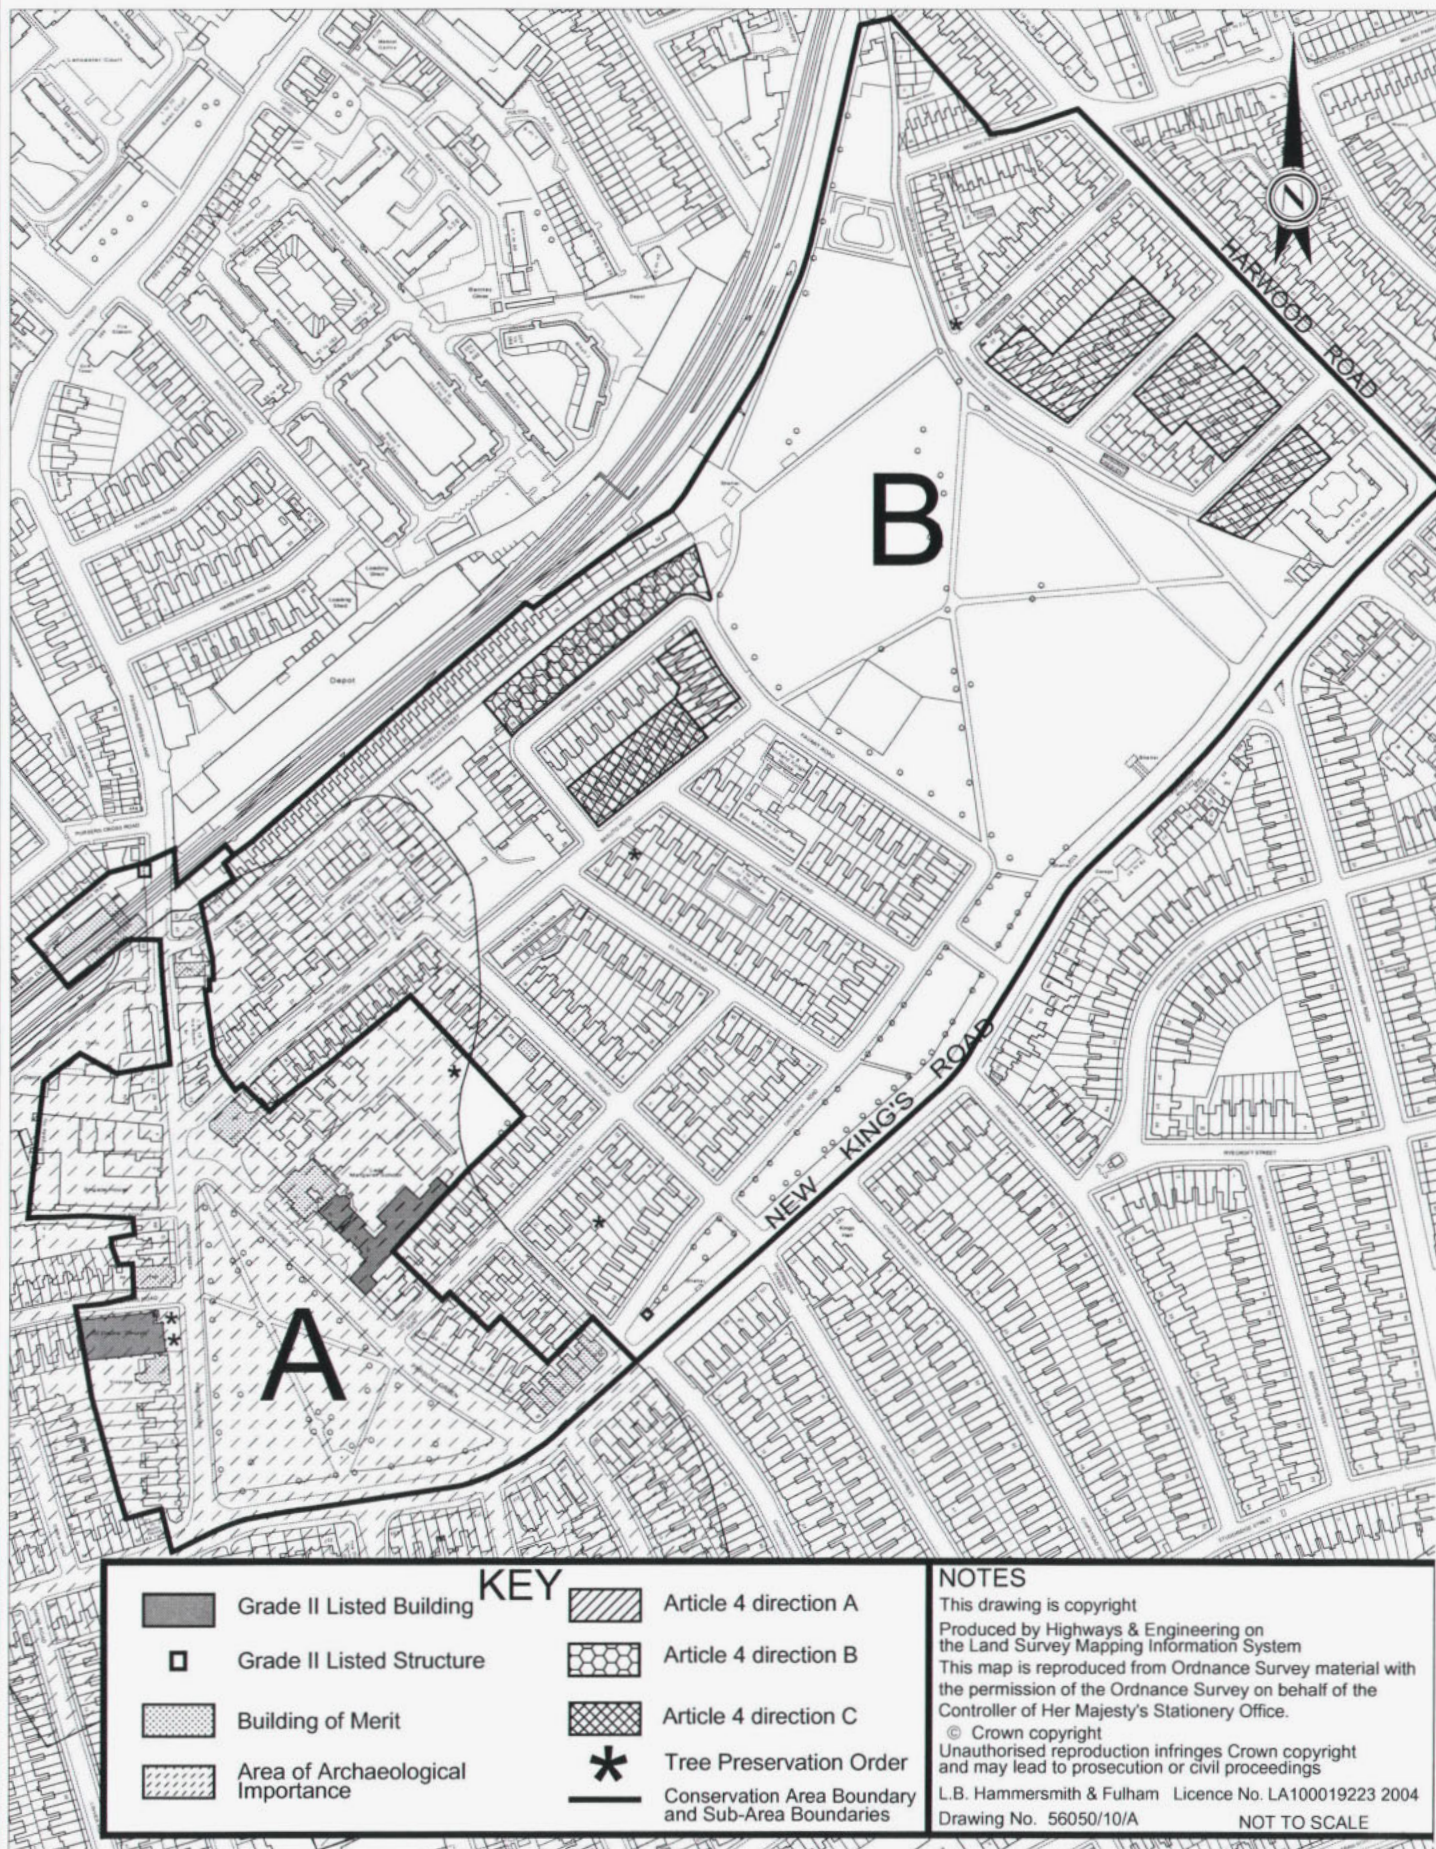

Tyrawley Road

Nos. 13a and 14-20 (consecutive)

Musgrave Crescent

Nos. 20-27 (consecutive) Favart Road

FOREWORD

The London Borough of Hammersmith and Fulham is fortunate enough to have 43 conservation areas covering almost half the Borough. These have been designated in recognition of the importance of the historic and architectural heritage in our Borough. As Deputy for Environment and Contract Services, I am committed to the preservation of these areas with the help of residents and local groups, so that they continue to enhance the quality of life in the Borough and so that they survive as good examples of our heritage for future generations.

This Profile describes the special character of the Parsons Green Conservation Area identifying buildings of note, interesting historic facts and showing how the buildings, open spaces and streets work together to create an environment worthy of protection.

I would like to thank all local groups who helped to prepare these Profiles, in particular the Hammersmith and Fulham Historic Buildings Group under the dedicated leadership of Angela Dixon and the Fulham Society. Through the consultation process the documents have evolved to represent not only officers' assessments of the conservation areas, but those of the local amenity societies and residents groups active in each area. I hope these Profiles will now provide extra assistance in the stewardship and preservation of what is best in the Borough.

Councillor Michael Cartwright
Deputy for Environment and Contract Services
